

TSPi NASA SEWP VI

NASA SEWP VI (Solutions for Enterprise-Wide Procurement), pronounced “soup,” provides the latest Information Technology, Communication, and Audio-Visual (ITC/AV) solutions and services for all Federal Agencies and their approved contractors.

SEWP OVERVIEW

Created in 1993, SEWP was the first Government-Wide Acquisition Contract (GWAC) in the federal acquisition space. It has evolved from a NASA-focused technology product vehicle into a broad acquisition resource serving Federal customers. SEWP is self-funded through a 0.34% usage fee and supports more than 50,000 orders annually.

FAIR OPPORTUNITY & REQUESTS FOR QUOTES

SEWP VI provides fair opportunity at the individual order level under FAR 16.505(b), including use of the SEWP RFQ tools. Key ordering rules include:

- Only IT solutions listed in the SEWP database of record may be marketed or quoted under the contract.
- For an RFI used for market research, not-yet-listed items may be identified if clearly marked and a technology refreshment request is submitted.
- RFQ/MRR responses may include only contract-listed items, priced no higher than the SEWP database price in effect when the quote is issued.
- If TSPi cannot fully respond to a formal RFQ, it must No Bid unless partial quotes are expressly permitted.
- Quotes must state their validity period; orders submitted within that period must be honored.
- Responses through the SEWP online quoting system must follow the Contract Holder User Manual (CHUM).
- Government information on the Contract Holder Only Page may be used only for proposing on SEWP requirements and may not be shared to support unsolicited third-party proposals.

ORDER & CUSTOMER SERVICE SUPPORT

For questions or issues related to an order, including order status, delivery, invoicing, product or service issues, returns, or other post-award support, customers should contact the TSPi SEWP Program Manager, Daniel Enriquez at daniel.enriquez@tspi.net or the TSPi Main Office: (877) 455-8774. The TSPi team will coordinate with the appropriate internal, supplier, or manufacturer resources to address and resolve order-related issues promptly.

PROCEDURES FOR OBTAINING SERVICES & SUPPORT

Federal customers and authorized contractors interested in obtaining IT solutions or services through TSPi's NASA SEWP VI contracts may contact the TSPi SEWP Program Team for assistance with requirements, product and service inquiries, RFQs, quotes, and ordering procedures.

Primary Contact:

Daniel Enriquez, SEWP Program Manager
daniel.enriquez@tspi.net

Alternate Contact:

Gary Llamas, Deputy Program Manager
gary.llamas@tspi.net

TSPi will work with customers to understand their requirements, identify appropriate SEWP VI solutions, and provide timely support throughout the RFQ and ordering process.
